I am writing to ask you to explore Community Choice Energy now ! Please don't wait any longer to make a decision to work with Santa Barbara and Ventura Counties to conduct a feasibility study ? Both counties have already given their financial support for this project. I'm paying too much money for my electricity, and I am very cautious not to waste any utilities !!!

Thank you,  
Peggy Sharpe--- a long time resident of SLO County !

Please explore Community Choice Energy! Join the feasibility study with Santa Barbara and Ventura counties. This appears to be a win/win situation!

Comments or questions (8,192 characters max):  
Hello Supervisors,

As a voter and engaged citizen of San Luis Obispo, I would like to write this brief message to encourage you to vote on Tuesday for SLO County to cooperate with Santa Barbara and Ventura Counties (and interested cities) in a shared-cost Community Choice Energy feasibility study, as well as work with our interested cities to explore Community Choice Energy as a County.

Through my research of the topic, including looking at other counties that have undertaken a CCA, I have gathered that the multiple potential benefits (increased competition, long term rate stability, increased jobs and economic opportunity, an increased clean energy portfolio, etc), I see no reason to keep our county from exploring this option and taking the step of a feasibility study. We owe it to ourselves, as well as generations following us, to take this market-based approach to addressing environmental and economic needs.

I look forward to hearing your decision Tuesday.

Best,

Carlos Villacis

Comments or questions (8,192 characters max):  
I have worked in grape growing and winemaking here in San Luis Obispo on a part time basis since the late 80's and full time since 2006. Most recently I was winemaker and general manager at Tolosa Winery. I reside and am a homeowner in the city of San Luis Obispo. I am writing to encourage you to support CCE which will be discussed in your Oct. 6th meeting. I have many colleagues as well as family in Napa County which has recently joined with Sonoma county in a CCE agreement. I have heard from them of the benefits that accrued. We are one of the few Central Coast counties that is not pursuing this option and the opportunity to join with Santa Barbara and other local governments should not be missed.  
Respectfully,  
Larry Brooks
